The LAGNIAPPE

PUBLISHED ANNUALLY
BY THE STUDENTS OF
LOUISIANA TECH
RUSTON, LA.

Foreword

*"A mighty Hand, from an exhaustless
Urn,
Pours forth the never ending
Flood of years,
Among the nations."*

This one year in the mighty Hand of time has constantly shifted its players and scenery. In these pages we have tried to portray one ebb in the great flood of years—the college year of 1930.

*"There are those who toil,
And they who strive, and they who feast,
and they
Who hurry to and fro."*

If we have given one of them a memory which is dear, then our efforts have not been in vain.

Dedication

*Because of his high ideals for
nobler things in life,
Because he passed these ideals
on to the Spirit of Tech,
And because, we appreciate what
he has brought to us,
We dedicate the 1930 Lagniappe
to*

President George W. Bond

Our Alma Mater

"Beautiful City! so venerable, so lovely, so unravaged by the fierce intellectual life of our century, so serene!

"There are our young barbarians, all at play!"
And yet, steeped in sentiment as she lies, spreading her gardens to the moonlight, and whispering from her towers the last enchantments of the Middle age, who will deny that Oxford, by her ineffable charm keeps ever calling us nearer to the true goal of all of us, to the ideal, to perfection—to beauty, in a word, which is only truth seen from another side."

—Matthew Arnold.

HISTORY

Shakespeare has said that the world is a stage, and the men and women are the players. To us, the Senior class of 1930, Louisiana Tech has been our world, our stage for the last four years. On this stage we have presented a four act play; each act has been a college year in length.

The actors have been the members of our class. Some of us have played minor roles while others have taken the major parts. Working together in beautiful harmony, we have striven to make our play the best ever staged at Louisiana Tech.

In September, 1926, the curtains parted to disclose the first act of our play—the Freshman act. In spite of the fact that we were young, green amateurs, we skillfully selected our main characters. The principal role was played by Lanier Thompson, president. Each played his part in a commendable way. In June, 1927, the curtains were drawn again.

After an interlude of three months, a more experienced group began the second act—the Sophomore one—, and so on throughout our Junior and Senior years. Playing the leading parts the second year were Davidson Brown, President; Denis Noah, Vice President; Eugenia Sentell, Secretary-Treasurer. Leading the Juniors were Bernice Hemler, president; "Lit" Haley, vice president; Ernestine Elder, secretary-treasurer. This year we have Margaret Rainwater, president; Bernice Hemler, vice president; "Lit" Haley, secretary-treasurer.

Playing opposite our class officers were such notable actors and actresses as "Dodo" Stewart, Robert Dubose, Dennis Peel, Berry Hinton, and Quitman Long.

It seemed impossible that such joys, pleasures, and sorrows could be included in one play. Never did such actors and actresses take such an interest in the drama of college life as did those of our class. With eyes brimming and determined smiles on our faces, we lift our voices in song:

*"Oh Tech, thy halls so beautiful
Thy pleasant walks and noble trees—"*

The curtain fell, and the drama ended May 29, 1930.

—Margaret Hedrick, Historian.

Along the Way

There was a narrow strip of road—
It lead through hazy fogs
And straining arms of briars
That caught and clung
And held us tight.
We came to a tiny bridge
Covered and walled with books
There was a green placard above
With a sign that said, "You're fresh!"

The road widened here;
There was a flower
In a little bit of grass
That showed up bright and clear.
The fog lifted, and out of the night-light darkness
The sun shone through
As we came to a second bridge,
Wider now, and brighter
With a rosy pinkish tinge
And a rose-covered wall,
As I read
"You're wise! You're a soph!"

—Doris Taylor

MARGARET WILSON	Historian

HISTORY

Rattle, chug, chug, rattle, squeak, bang! Here we come! One yank at the emergency brake, a quick skid of tires, and then we all tumble out the sides and top of "Alexander the Great." Here we are, folks! Here we are. C'mon and give fifteen big ones for the Juniors!

This is our third stop on our way to our degrees since we started off in the fall term of 1927. Maybe there are some things you haven't heard about the Juniors. Do you know just who we are?

After the first lap of our journey which ended our Freshman year, we suffered a loss of about fifty students. Among those missing was our Freshman President, Sally Holestein. To start the second part of the journey we set about justify our existence on the campus. As individuals we lead and participated in many school activities and as a group we won honors in many interclass sports and contests. The third year of our trip we entered the most important part of our college days. As juniors we took upon ourselves the responsibility of looking after the Freshmen, advising the Sophomores, and meditating over the actions of the Seniors. George Williams, as our president for two years, lead the class quite efficiently in this. Then, there's Ella Mae Jolley—she's George's right hand woman—and Weakley who is vice president.

We mustn't forget our features contest winner, Ella Lee Jackson, Ella Mae Jolly, Dalls Goss, and our president, nor our athletes. What would Tech have done without Sheppherd as a track star, and Weakley who was named an all southern basketball guard this year. To do something worth while for Tech we have started a memorial fund, and have saved fifty dollars since our sophomore year.

Oh, goodness! hear that honk, honk? That's "Alexander" calling us. Come on and load in, Juniors. We've only a little ways to go before we reach Seniorville. Pile in. Now it's rattle, chug, chug, rattle, squeak, bang. Here we go. Who? The Juniors.

—Margaret Wilson, Historian.

HISTORY

Carlyle says that history is but the biography of great men, and in writing this history of the class of '32, we fully recognize his views.

September 17, 1928, was an eventful day for Louisiana Tech. From north and south, east and west the sons and daughters of Louisiana gathered here, coming in trains, buses, and in "Collegiate" fords. (If I remember correctly, I didn't see anyone step from a limousine and order "Home James." There were those who were meeting old friends and who seemed to be enjoying themselves immensely. But . . . we poor freshmen! With our best high school manners and our wise cracks hooted at or disregarded altogether, what else was there to do but stand back and wish for Mama and Dad?

We were soon to learn, however, that upperclassmen had not forgotten their freshman days, and we were given a party in the Women's Gymnasium. My,—what a party! I can see L. C. Curry meowing. (He was in the "Cat" division). We were given a tea in the President's home by the Y. W. C. A. and Y. M. C. A., and before many days felt more at ease.

Registration day came. "What are we to do?" Who is going to tell us what to take?" "Which is the Academic building?" These were some of the questions. We were lost in a forest of signs, "TO THE DEAN OF MEN," "TO THE DEAN OF WOMEN," "TO THE REGISTRAR," "TREASURER'S OFFICE." It wouldn't be history to leave out the celebrated pajama parade, and the hobo parade. These took place on the day of the first football game and on Homecoming day. The president of our class was L. C. Curry. Hick Files was secretary and Miss "Dot" Roberts was representative.

Verily, verily, I say unto you, wide is the road that leads to the trials and tribulations of a "freshie" and many are the tears shed thereon; but great is the sport and merriment of the second year student to which all aspire." September 16, 1929, we came flocking back to the hill. Wise sophs!—poor frosh! We knew everything and told it all wrong. The annual pajama hobo parades were held, with us supervising them.

"Fanny" Mangham is president, "Tip" Tipton, vice president, and Howard McCarty is Secretary. We have had, so far, lots of fun as sophs and expect to have more as Juniors.

—Sybil Green, Historian.

HISTORY

In the early days of September, 1929, a tribe, three hundred strong, known as high school graduates migrated to Louisiana Tech. They represented many races from many parts of the country. Every one of them had the same reason for ending his or her pilgrimage at Tech. Since their life work and ambition was centered about the upbuilding of their personal efficiency, their search came to a satisfactory end when they discovered this institution of knowledge.

This new tribe was given the name of "Freshman" by an older race in this school. The "Upperclassmen," through special representatives, succeeded in making these freshmen realize the importance of obeying all rules.

Immediately, this young tribe realized the importance of organization. The result was, that on September 21, they met and selected three members to head their organization, a chief, Tom Jones, a sub-chief, James Davis, and a business Chief, Margery Jones.

When the upperclassmen were forced to invade Centenary, the Freshmen were there with plenty of support, and bells on. Later, both races were attacked by a barbarious tribe of the north, known as the faculty. This vicious tribe used a deadly weapon, called examination, to exterminate their enemies. Many warriors from both tribes were seriously injured. In fact, it required some of them as much as six months to recuperate.

Another important force worthy of mention, was the Tech spirit. This spirit may be defined as a struggle for bigger and better things, such as more vivid friendships, personal, intellectual and physical attainments and a great urge for truth, honesty and justice.

There are also several noteworthy activities that the freshmen performed as a unit. Their four black-faced comedians won first place in the contest held on stunt night. The freshmen football team marked an epic in Tech's football history as one of the cleanest and hardest fighting teams this institution has ever had. Throughout their activities in this school the freshmen have distinguished themselves by their exceptional ability. They are all eager to help the future immigrants to Tech become better men and women. Such is the history of the freshmen of 1929-1930.

—Elmo Hutchison, Historian.

The purpose set forth by this organization is to encourage scholastic ambition and a spirit of unity and fellowship; and to mark in a fitting manner those who by their high record as undergraduates, or by their attainment as alumni give promise of future advancement to the field of Engineering.

HISTORY

To better carry out the above purpose, this organization, which has existed in mind since the founding of the school, was thoroughly unified in 1927.

The Reporter's "If"

If you can keep your head when all about you
Are sheets of copy, all marked up and scarred,
If you can trust yourself to write when others doubt you
But make allowance for their doubting hard,
If you can wait to learn and not be tired by waiting,
Or being laughed at, lied about and still don't deal in lies,
Or being criticized in copy reader's readings,
And yet don't try to know too much nor seem too wise.

If you can write, and writing, get your facts all straight, too.
Or walk with editors, nor lose the common touch,
If neither they nor loving friends can hurt you
If all your stories have some pep, but none too much,
If given an assignment you can tell what's in it,
Can write it clearly, and your work's well done
Yours is the newspaper job and all that's in it,
And, what is more, you'll be a newspaper man, my son.

—Selected.

Athletics

LAGNIAPPE

F. A. "TOD" ROCKWELL
HEAD COACH

COACHES "ERNIE" SHIRLEY, "BOB" WYNN, "FROSH" FOX, "TOD" ROCKWELL,
"TUBBY" DAVIS, "CHIEF" COLE.

CLINTON SANDERS, THEODOSIA STEWART, L. C. CURRY, BETH SENTELL.

Cheering Squad

Clinton came to Tech in 1927. His experience in cheer-leading at Ruston High School aided him in soon becoming one of the best in school. He was out of school in 1928, but in 1929, when he returned he was elected assistant cheer leader. He was valuable in keeping school spirit high during the season.

This was Dodo's second year as head cheer-leader at Tech. Her good work throughout her first year caused the students to choose her the second year as their yell-leader. Because of her popularity she has the support of the whole student body and they obey her orders in the best of spirits. She never quits.

Curry, a sophomore, was elected as head cheer leader for men because of his good work while a freshman last year. The way he led yells during his freshman year was great, and he bettered his reputation this year. Curry takes part in basketball, so he does not get a chance to lead during these games, but he makes up for it by his work during football season.

Beth Sentell, a freshman, did good work as a cheer leader during her first college year. She was always working, and as peppy as anybody on the cheering squad.

COACH F. A. ROCKWELL
Director of Athletics

Coach F. A. "Tod" Rockwell graduated from the University of Michigan, June, '25; Athletic Director and Head Coach at Salem College of West Virginia during '25, '26; University of North Dakota, '26, '27; Head Football Coach and Assistant Professor of Physical Education, University of North Dakota, '27, '28; since then Director of Athletics and Physical Education at Louisiana Tech.

VARSITY FOOTBALL SQUAD

Review of the Season

Before time to report for football practice early in September, the outlook for Tech was exceedingly bright. Only two men of the 1928 Bulldog machine had been lost by graduation. Added to that list of lettermen who were expected to report was Harold Wise, stellar performer on the 1927 Bulldog eleven.

When time to call the roll came, however, Pat Patterson, Pat Savoie, "Skeets" Coates and Berry Hinton were missing in addition to the two men lost by graduation.

Considering the loss of these men, the Tech season cannot be called a failure. In fact, it was very bright for those who see into the near future. The 1928 Freshmen eleven came to the rescue with a flock of fine ball players, as many as seven of whom started some of the games later in the season. These boys had no experience in varsity college ball when they began to play as regulars. Maroney, Mangham, Yeldell, Wheelus, Gilbert, Baker, Moffett and Heard all played good football for Tech and all are expected to make a great name for themselves in future years on Tech soil. The quintet of Maroney, Mangham, Gilbert, Baker and Moffett have probably the brightest outlook for future success of any men who have reported to Tech in a long time.

Swayze, Riser, Gatlin, A. Baker, Pietsch, Bolen, Wise, and Terry, all played fine ball and their presence in the line-up was no good news to the opponents.

Four of Tech's regulars will be missing from the 1930 edition of the Bulldog eleven due to graduation. These men are Gale Burnham, 1929 captain, Dennis Peel, alternate captain, Nathan Henderson, and Quitman Long.

Of the twenty Bulldogs who lettered, eleven received the "T" for the first time, which indicates that Tech should have one of the best teams in several years, when the 1930 season is under way.

Captain Gale Burnham

George "Jigger" Riser
"Captain-elect"

Johnnie Moffett

Tech won its first game of the season by a score of 21 to 12 from Clark College. The line-up for Tech was composed of veterans, with the exception of Spring at tackle, and Heard at end. The Bulldogs played very poor ball throughout the first half. It seemed as though they could not get going. During the second half Coach Rockwell sent in his all-sophomore backfield combination, composed of Moffett, Mangham, Maroney and Bob Baker.

After these substitutions were made, Clark started a passing attack. They had worked the ball well into Tech territory when Bob Baker intercepted a pass, and behind good interference, ran seventy-five yards for Tech's first touchdown. The extra point was made through the line by Maroney. This put Tech in the lead, 7 to 6, Clark having scored early in the third quarter.

Immediately after the kick-off Clark scored another touchdown but failed to make the extra point, giving them a 12 to 7 lead. Tech received the ball, after Clark had scored. Tearing the line to shreds, Maroney, halfback, scored Tech's second touchdown soon after. He added the extra point by a line plunge. Tech 14; Clarke 12.

In the fourth period, with Mangham and Maroney making long gains on off-tackle plays, Tech scored its last touchdown. Maroney carried the ball over and added the extra point through the line. The game ended with the score, 21 to 12, in favor of Tech.

On October 11, the Bulldogs traveled to Magnolia, Arkansas, to play Magnolia A. and M. College. In this game Tech ran into unexpected strength. Coupled with this, many penalties kept Tech from showing as well as expected.

Tech kicked off to Magnolia and after failing to gain on two plays the Arkansas College attempted to punt out of danger. A Bulldog blocked the punt, but on the first play Tech fumbled and A. and M. recovered. Aided by severe penalties, the Aggies carried the ball deep into Tech territory. Here the ball remained for the greater part of the first half.

Lagniappe

Nathan "Nate" Henderson

Failing to gain a touchdown through the line or around end, Magnolia attempted to pass its way into the promised land. Gilbert, playing halfback, intercepted one of these and was not tackled until he had stepped out of bounds on the Aggies' two-yard line. Four desperate attempts to put the ball over failed and the ball was again in the hands of the opposition. Short gains coupled with substantial penalties on three consecutive plays soon brought the ball into midfield. The half ended with a scoreless tie.

Soon after the second half opened, Magnolia, on a series of line plays, mixed with passes, scored the first touchdown of the game. An attempt to make the extra point failed. Tech received the ball and soon advanced it to the fifteen yard line. Failing to gain from here on three plays, Gilbert passed to Moffett on the five-yard line. The ball was called back, however Tech was penalized for roughness and A. and M. given the ball.

After two plays through the line failed to net any yardage, the Aggies punted. Tech ran two plays through the line. Then Maroney threw a pass to Wise, end, who dodged his way to the line. Tech 6; A. and M. 6.

On October 19, the Bulldogs journey to El Dorado, Arkansas, to meet the strong Ouachita College Tigers of Arkadelphia, Arkansas. The first half of the contest was featured by a punting duel, Tech having a slight advantage. Ouachita was forced to punt from behind her own goal line on several occasions. On the fifteen yard line, when they punted one time, Berry Yeldell broke through and blocked the kick. Tech failed to make a first down by six inches and had missed a good opportunity to score.

The second half opened with Tech kicking to Ouachita. Tech recovered a fumble on Ouachita's 18-yard line. From here Mangham and Baker tried the line but without much success. Then Baker passed to Mangham who was tackled on the six-yard line. Mangham carried the ball over the mark from here on a line play. Gilbert place-kicked the goal and the Bulldogs led by a score of 7 to 0.

E. "Sonny" Maroney

"Bob" Baker

Harold Wise

"Fanny" Mangham

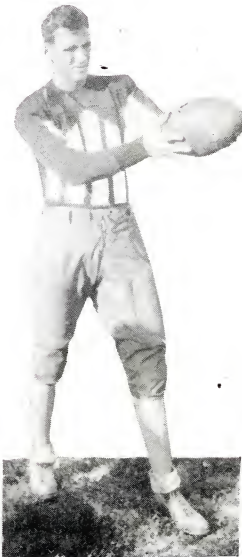

The second and final touchdown was made early in the fourth quarter when Baker passed from the forty-yard line over the goal line to Henderson. The attempt to make the extra point failed.

After winning from the stubborn Ouachita College eleven the Bulldogs traveled to the State capitol to play Louisiana State University, strong Southern Conference eleven. During the first half the Bulldogs put up a good fight, the period ending with Louisiana State, 21; Tech 7.

In the second half Tech's lack of reserve material began to tell on her and as time wore on the down-state squad increased their lead more rapidly. Tech put up a valiant fight but was unable to successfully check the onslaught of the Tigers. The final score was 53 to 7.

Tech's lone counter came in the second quarter. Maroney intercepted a pass and with two passes, two penalties and two line plunges the ball was put on the Tigers' five yard line from which Maroney carried it over in three plays. Gilbert successfully place-kicked the goal.

Tech made nine first downs while L. S. U. was making ten, but the L. S. U. runs were longer, and counted for more than those turned in by Tech.

Bennie Swazye

On November 2, the Demons, traditional foes of Canines from Louisiana State Normal, came to Ruston to engage in battle with Tech. The game was played most of the time in a drenching rain and the field was terribly muddy to begin with as a result of two days intermittent raining prior to the game.

The game ended in a scoreless tie.

Twice in the first half the Bulldogs carried the ball deep into Demon territory but neither time were they able to carry it past the last white stripe. Poor punts, due to a slippery ball, and straight line plays featured the first half.

In the second half, Normal opened their passing attack. The air was full of passes for a time and the Demons advanced deep into Tech's territory. On the five-yard line the Bulldogs braced and Normal's strenuous efforts to score amounted to nothing.

Tech led the Demons in first downs, 6 to 5.

LAGNIAPPE

Hall Terry

On November 9, Coach Rockwell and his team found themselves beyond the great muddy stream playing the strong Millsaps Majors. They fought hard and gained a 6 to 6 tie with their traditional foes from Mississippi.

The game started off with Tech kicking the ball to Millsaps. A series of penalties and two long passes put the ball on Tech's three-yard line from where it was carried over for a touchdown.

Tech received the kick-off and started down the field on a series of line plays with Long doing most of the ball carrying. This march ended on the five-yard line when one of Tech's passes was intercepted.

After this the remainder of the first half was played in midfield with neither side gaining much of an advantage over the other.

Millsaps started the second half off with a dazzling passing attack. Here the big thrill came. Long intercepted one of the Major's passes on his own forty-yard line and ran sixty yards through the entire Millsaps team for Tech's lone counter.

In this game, Tech's line showed superior power and the air was the only route that the Majors could advance by with any appreciable success.

After Long's run the game was played mostly in midfield, with punts being exchanged frequently. Neither side could gain much advantage and the game ended with the ball in Millsaps' possession on her own 40-yard line.

On November 15, the Bulldogs invaded Mississippi for the second consecutive week to battle the Mississippi College Choctaws at Jackson, Miss. The game was the feature of the Choctaw Homecoming Day program, but due to hard rains in Clinton, the home of Mississippi College, the game was played in Jackson. The game ended with the Bulldogs on the short end of a 20 to 6 score, but throughout the entire game they gave a good account of themselves.

The Choctaws' first touchdown was the result of a fumble by Tech on its own one-yard line, early in the first quarter. From this time until the end of the half, play was mostly in mid-field except late in the second quarter, when the Choctaws' second touchdown was made on a pass. Most of the first half was featured by a punting duel with Metz kicking for the Choctaws and "Bob" Baker doing the booting for the Bulldogs.

Roy "Powerful" Bolen

Quiltman Long

Lagniappe

"Peaches" Peitch

Roy "Gat" Gatlin

A. D. Baker

Tech received the kick-off at the beginning of the second half but were soon forced to punt. The third quarter found the ball in mid-field most of the time, with each team holding possession of it about the same length of time.

In the fourth quarter, Long, Tech fullback, got past the line of scrimmage for a 35-yard gain. This carried the ball deep into Choctaw territory. However, Tech lost the ball on downs. At this time Riser, tackle, came in the game and on the first play blocked a Choctaw punt and ran for a touchdown. In the last few minutes of play the Collegians scored another touchdown by a forward pass from Metz to Lee.

With a special train load of supporters in the stands the Bulldogs played their best game of the year against the Centenary Gentlemen on November 23. After play had been going on for only two minutes, Maroney, Tech's shifty sophomore halfback, brought the stands to their feet by slipping through Centenary's line and making a neat forty yard gain before he was downed on Centenary's 15-yard line by the Gentlemen's safety man. Here, Tech's offense halted and the Gents gained possession of the ball.

The Gents made their first score of the game in the first quarter when, after working the ball down the field, Brown made the marker on a short end run.

In the second quarter neither team was able to score.

The second half began like the first half ended, neither team being able to advance the ball very far into the other's territory. Finally, during the third quarter, Patterson, Centenary end, caught a long forward pass and raced 15 yards for the Gents' second touchdown of the day.

Centenary made her final touchdown in the last quarter, when after a long drive featuring a varied attack, the Gents completed a 15-yard triple pass for the final marker. Attempts to make the extra point failed after both of the last touchdowns and the game ended, Centenary 19; Tech 0.

Darrell "Dutch" Heard

Jimmy Wheelus

As the game ended, the Bulldogs were attempting desperately to score via the air route. Several long heaves from Long to Mangham were successful.

On November 30, Tech journeyed to Pineville to play their traditional rivals, the Louisiana College Wildcats.

Tech kicked to Louisiana College. The first part of the quarter was occupied with a punting duel, each team hoping for a break and both trying to feel the other out. The break came, when Maroney, late in the first quarter, received a punt and made a beautiful run of 65 yards for a touchdown. Baker went over left guard for the point after touchdown.

The Wildcats' first touchdown came after about a quarter of even playing when Harkness threw a pass to Stevens late in the second quarter. The attempt to make the extra point was successful and the first half ended with the score 7 to 7.

Tech received the kick-off to begin the second half. Play was about even until just before the third quarter was over when Louisiana College scored her second touchdown on a trick play.

Early in the fourth quarter Riser blocked a punt and Long went through the line for a touchdown. The attempt to make the point failed.

Late in the fourth quarter, with the ball deep in Tech's territory, Louisiana College made their third touchdown. Tech held them for three downs on the one-yard line, but on the fourth the last white stripe was gained. The game ended soon after with the score, 19 to 13, in favor of the Wildcats.

Taking advantage of all opportunities that drifted their way, the Bulldogs celebrated Homecoming Day, December 7, with a 24 to 7 victory over the Southwestern Louisiana Institute of Lafayette.

The field was muddy due to rains the day before the game. The Bulldogs, playing a defensive game, kicked the ball deep into Southwestern territory at every opportunity. Finding the ball hard to hold,

Dennis Peel

C. J. "Gilly" Gilbert

Southwestern fumbled on their own 20-yard line and Tech recovered. Here came Tech's first touchdown. Maroney faked a right end run and reversing the field beautifully, went the entire twenty yards for the score.

In the second quarter, Gilbert caught a Southwestern fumble before it hit the ground and in something less than a twinkle of the eye was well on his way in the thirty-yard journey to the goal line.

The third touchdown came when Baker, playing fullback, intercepted a Southwestern pass and squirmed forty yards to the final white stripe.

Southwestern opened the second half playing a much better brand of ball and held Tech on even terms throughout the third quarter. In the fourth quarter, on a series of line plays, the Bulldogs carried the ball deep into their opponent's territory, from where Long plunged it over the goal line for Tech's fourth and final touchdown. Southwestern scored its lone touchdown a few minutes later on a forward pass, after Coach Rockwell had sent in many substitutes.

On the bench at this game were the players' fathers who had been invited by Coach Rockwell to attend the game and be with their sons during the fray.

FRESHMAN FOOTBALL TEAM

Review

At the first practice session last September, Coach Fox was greeted by a large group of first year men from which he was to select men to compose his 1930 Bullpup team.

As far as games won and lost are concerned, the season was not a success. However, some of the men on the team showed well enough during the season to prevent any gloomy reflections.

Out of the four games played, only one victory was chalked up by the Bullpups. They won over the Louisiana College Kittens by a score of 21 to 7. This was the first game of the season. The next three games played were lost. Centenary's Junior Gents won 19 to 12; Southwestern's Bullpups beat them, 13 to 7, and the State Normal Imps conquered our Bullpups by a score of 38 to 0.

In these games, several men proved themselves worthy of consideration on next year's varsity. Of these "Red" Foil was the sensation. "Red" weighed only about 160 pounds, but this proved no handicap to him even when pitted against heavier men. He played quarterback.

"Minnie" Humphries was captain of the team and played tackle. In the opinion of some, this man is too light for a tackle, but he will make a good man in other positions.

Other men who showed well during the season were Diamond, halfback, and forward passer extraordinary; Durham, halfback; Brown, end; Moore, another halfback; and Parker and Brewster, linemen. The majority of these men will be trying for places on the varsity next fall.

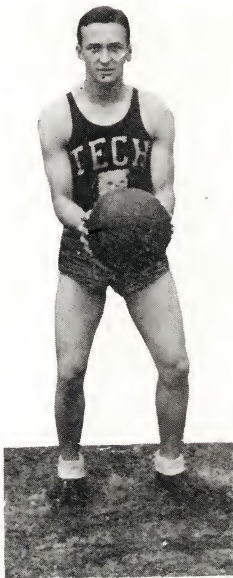

COACH ROBERT S. WYNN

Coach "Beb" Wynn has produced four winning teams in as many years at Tech. Coach Wynn is, besides an athletic mentor, a member of the mathematical teaching corps of the Louisiana Tech faculty. Coach Wynn has won for himself, through his scientific instructions in handling the "ball of the basket," a position of eminence in the hearts of Tech supporters.

VARSITY BASKETBALL TEAM

BERRY "DICK" HINTON

GORDON "CHICK" WEAKLEY

Francis "Fanny" Mangham

Tech opened its basketball season with a bang when she won the first intercollegiate game on the schedule from the strong Magnolia A. and M. Muleriders by the one-sided score of 33 to 13. Tech's reserves played most of the game and when they gave way to the varsity, they had amassed a safe lead. However, on the next night, the Muleriders turned the tables and beat the Bulldogs by a score of 28 to 25. On this night the Muleriders showed much better team work, but not enough better to gain a sufficient lead to win until the final minute of play.

The Bulldogs made their bow into conference competition in a two game series with Mississippi College Choctaws of Clinton, both of which were won by the Choctaws. The Mississippians were conference champions in 1929, and proved too much for the Bulldogs. The games were won by scores of 47 to 35 and 49 to 39 respectively. Tech was in bad form both nights, while Mississippi showed form that they probably never equalled during the rest of the season.

Garnet "Tip" Tipton

After the Mississippi invasion, the Bulldogs returned to their home quarters for games with independent teams. Two games were played, Tech winning both. The Canines won over Shreveport "Y" team and the Adlers from Monroe.

The next opponents of the Bulldogs were the Centenary Gentlemen, traditional rivals from Shreveport. Tech lost two games to the Gentlemen by close scores; the first being 35 to 30 and the second, 31 to 30. Both games were hotly contested, and many fouls were called on each team. The second game was won by the Gents after two extra periods were played to break the existing tie.

After taking two defeats from the Gentlemen, Tech again took the road for Baton Rouge, where they engaged the Louisiana State Tigers in battle. L. S. U. won both of the games. In the first game Tech put up a good fight and the game ended 37 to 31 in favor of the Bengals, but on the second night the Bulldogs could not get going seemingly, and the Tigers romped off to a 42 to 27 win.

Beaten but not disheartened, the Bulldogs stopped in Pineville to play the Louisiana College Wildcats. The story of this series was the same. The Wildcats won the first game by a score of 35 to 29 and the second by a score of 38 to 27. The Bulldogs, although they had not hit their stride, were on the eve of one of the most thrilling flashes that was ever afforded supporters of Tech.

They returned to Ruston, and after four days hard drilling, visited Natchitoches on Friday night and handed the Demons a 35 to 21 defeat. The next night, the two teams changed scenes of action and in the boys' gym at Tech the Demons showed better form but not enough better to win. The Bulldogs carried off this game by a score of 26 to 24.

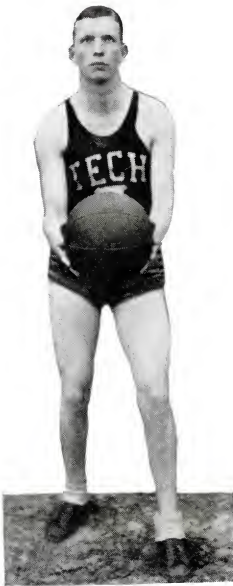

On Monday and Tuesday nights of the next week, the Bulldogs began a very successful week by defeating the Mississippi College Choctaws in two hard fought contests. On Monday night, the game was very close, the Choctaws threatening to wrest the lead from Tech continually. In fact it was only during the last few minutes of play that the Bulldogs drew away with a safe lead. On the second night, the Bulldogs showed unquestioned superiority over the Mississippians. The game ended with Tech on the long end of a 32 to 16

Fred "Hick" Files

Dennis Peel

L. C. "Heehy" Curry

score. Neither team showed the offensive power that they did the night before, but Tech excelled in team work, their passing being sensational at times.

On Wednesday night, the Technicians met the Normal Demons for the last time of the season. The first half of this game was just an ordinary ball game, although it was close. However, in the last half, the Bulldogs gave the crowd a thrill that was duplicated only one other time during the entire season. At the beginning of the half the Demons led by two points, 15 to 13. As play progressed, the Demons drew away from Tech to a large lead. With only three minutes left for play, Tech was eight points behind the Demons. Here Tech opened up; the team threw all caution to the winds and began their drive for a sensational victory. With one minute to play the Bulldogs had advanced so that they trailed only by one point. The ball was thrown up in center; Mangham got it, pivoted, and threw it to Hinton who scored the necessary two points as he skidded under the goal.

C. J. "Gilbear" Gilbert

The next night the team took a much needed rest, but on Friday night they were back on the battle front, being opposed by the Louisiana College Wildcats. The first battle was comparatively easy for the Bulldogs. They won it by a score of 41 to 28. But the second was undoubtedly the most thrilling ball game ever played on the Tech gym floor. About the middle of the second half it seemed as though the Bulldogs were in for defeat. A last minute rally, however, brought Tech within one point of the Wildcats who were playing for time. A minute, forty-five seconds, then thirty second were left to play. Here Fannie Mangham got the ball right under the goal, but was so closely

guarded that he could neither pass nor try for the goal. He ran out of the group and without changing directions—he was running directly from the goal—he threw the ball back over his head and made the necessary two points. The ball hit the floor just as the final whistle blew.

The two games with Louisiana College ended the Bulldogs' winnings for the regular scheduled tilts. On Friday and Saturday night of the next week the Bulldogs lost two hard fought battles to Centenary on the Gentlemen's home court. Both contests were hard fought, with both teams having many fouls called upon them.

On Tuesday of the week before examinations the Bulldogs left for Jackson Mississippi, where they took part in the S. I. A. A. tournament. Being conceded only an outside chance, every win the Bulldogs registered was received as a shock to most people. Yet, the Bulldogs kept fighting and left the Mississippi town with third place laurels in their possession. Tech defeated the University of Louisville, a highly touted machine; Mississippi College, conference champions in 1929, and Kentucky Wesleyan, during tournament play. Southwestern was the only team to defeat the Bulldogs and they were the ones that won first place in the tournament.

Robert "Bob" Baker

Berry Yeldell

FRESHMAN BASKETBALL SQUAD

Review

Twenty-six men reported to Coach L. J. Fox for freshman basketball at the beginning of the winter term. Of this group, six men were called that were used in the hard games. These six men were Johnson, Ewing, Donald, Medicia, Durham and Walker.

Johnson and Ewing worked at forwards. Johnson's floor work is considered excellent and this, coupled with his speed, will make him a strong contender for a varsity position next year. Ewing is capable of great ball. He is six feet, three inches tall, and in one game alone scored 38 points.

Donald, at center, according to critics, is sure of a berth on next year's varsity.

Little "Nick" Medica, the Jena Giant, who is five feet two inches tall, made the fans realize what speed is when it comes to playing basketball. He handled the ball in fine fashion and played guard on the team. Durham developed into a good stationary guard.

Walker, the sixth man, played a great game at both guard and forward positions when called upon to do so.

Others who gave promise of future development were Powell, Rambo, Minard, Jarrot, Colvin, Holmes and Flake.

The Pups played about nineteen games and of this number lost only three. They played the strongest high school teams near Tech and only one time they were defeated by a prep school team and that was by Sikes Agricultural School. The other two defeats were suffered at the hands of the strong Normal Imps.

Most of these men will be out next year making varsity players work hard to stay in the starting line-up.

L'AGNIAPPE

1-9-3-0

COACH L. J. FOX

Coach Fox came to Tech in 1925 as Freshman Coach. In this field he built some good teams in football, basketball, and baseball. In 1929 he took over the duties as coach of varsity baseball. This year he is again coaching varsity baseball and has prospects of turning out the strongest team ever produced at Tech. For three years Fox was a star for the University of Georgia in all three of these sports.

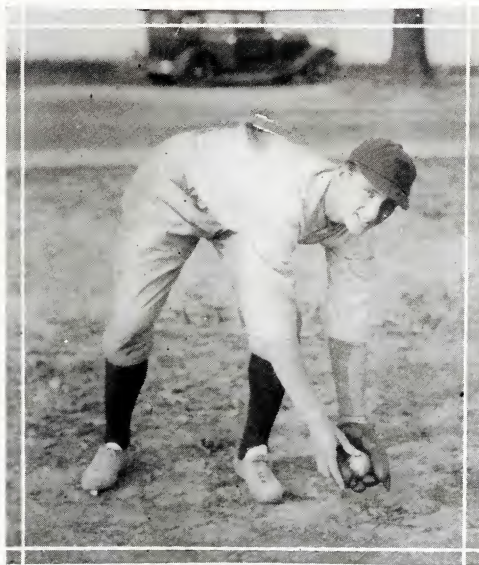

Lagniappe

VARSITY BASEBALL

Quitman Long

Captain Berry "Dick" Hinton

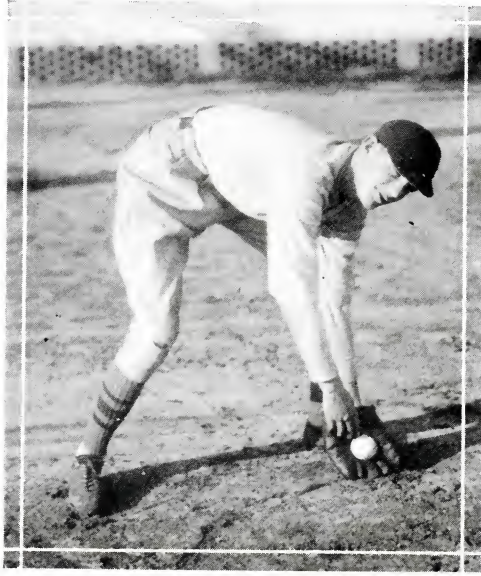

Maurice "Lefty" Donald

LAGNIAPPE

BENNIE SWAZYE

WYCLIFF "WICK" LAWRENCE

OSWALD "OS" GIDDENS

The 1930 edition of the Bulldog baseball team is considered to have the brightest future that any team has ever had at Tech. It started the season off with a bang when it defeated the strong Mississippi College Choctaws in a ten-inning tilt. The score was 3 to 2 and the game was featured by the pitching of Donald, who worked the entire ten innings, and home runs by Maxie and Long.

On this team, there are five men who are playing their last season under the colors of the Red and Blue. They are Long, Hinton, Riser, Giddens and Pipes.

Quitman Long, with his sensational catching and hitting, has been on the Tech team for the past three years. As well as taking part in baseball, he has played on the varsity football team for three years. It is predicted that Quitman is destined to play big league ball.

Berry "Dick" Hinton, captain and second baseman, is one of Tech's most versatile athletes, having lettered in football, basketball and baseball.

According to critics, he is one of the smartest fielders ever seen on a Tech nine.

George Riser, although this is his last year of baseball, has one more year of football and will captain the 1930 eleven. George, by trade a catcher, is being used in the outfield, so that his batting ability can be utilized.

Oswald Giddens, sensational fielder, was a regular in 1929, but due to the advent of men who are stronger hitters, may not see regular action this year. However, it is expected that he will play quite a bit.

"Buck" Pipes is playing on the squad his last season. Pipes' work has been overshadowed by Long's greatness. Nevertheless, he is a good catcher and has been of great service to the team.

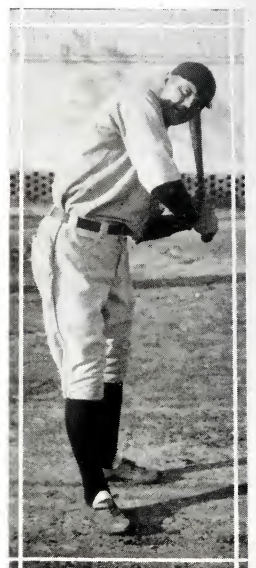

Of the men who have one more year after this to play baseball on the Tech nine are Simmons, Walpole, Swazye, Donald, McFarland, Grafton and Courtney.

JOHN R. KELLY

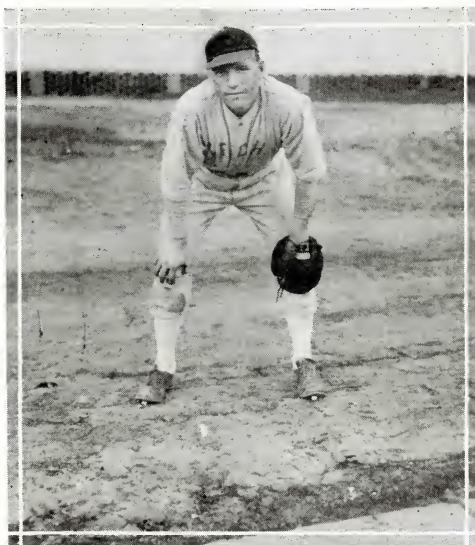

J. I. "SIMMY" SIMMONS

GEORGE "JIGGER" RISER

JOHN McFARLAND

C. J. GILBERT

ROBERT "BOB" BAKER

Of this group, Simmons is the most outstanding player. His sensational fielding and consistent hitting would make him a valuable asset on any S. I. A. team. Simmons plays shortstop.

Walpole, outfielder, is an excellent fielder and is said to be the type of player that looks good to big league scouts.

Swayze, Donald, McFarland and Courtney are all pitchers. Donald and McFarland have lettered in the past in baseball, while Swayze and Courtney probably will make the grade this spring. Both of the latter have prospects of becoming great hurlers, while Donald and McFarland have already proved their worth.

"Sport" Grafton, outfielder, is considered the smartest fielder on the squad, but is handicapped in size and hitting ability.

The sophomores on the squad include Brown, Laurence, Maxie, Baker, Gilbert, Moffett, Kelly, Kinman and Edens.

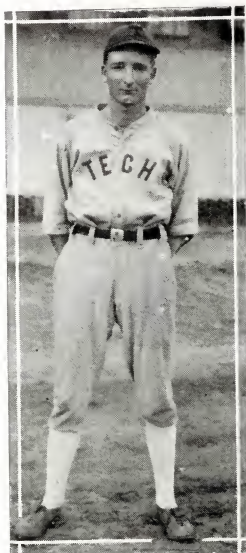

Three of this number are pitchers. They are Baker, Kelly and Edens. All show promise to developing into good hurlers.

Three out of this group of sophomores will play regular this year. They are Maxie, outfield, Gilbert, first base, and Laurence, third base. Maxie and Gilbert both are hard and consistent hitters. Laurence is an excellent fielder, but rather weak with the bat.

Brown, a freshman three years ago, was out of school for two years. He looks as if he will develop into a really great ball player on account of his hitting and fielding.

Johnny Moffett, the star sophomore quarterback on the football team, has proved himself excellent at ball hawking, and it is predicted that he will develop into a real hitter by next year.

Kinman is the only real utility man on the squad, playing both infield and outfield positions. He is a fair hitter.

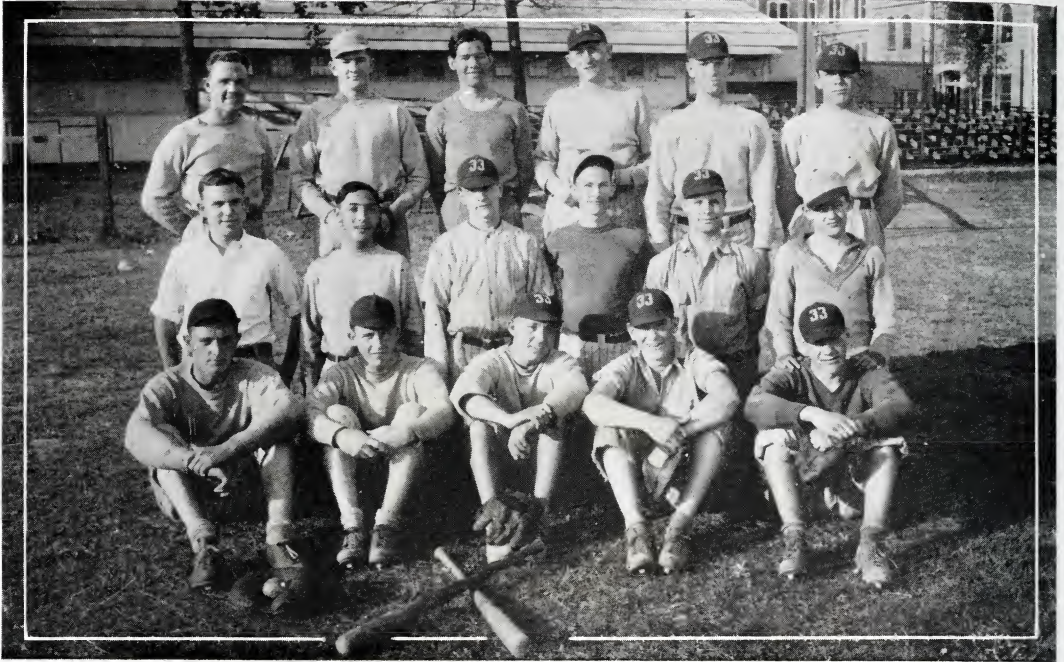

WEBSTER WALPOLE

BURRELL MAXIE

DAVIDSON BROWN

FRESHMAN BASEBALL TEAM

Review

Under the tutelage of Coach Rockwell, the Bullpups have a team of diamond-men that show great possibilities of developing into future greats. In early practice sessions, these boys played well against the varsity, and the prediction is that when the season is under way, success will be theirs.

The most promising of the new men on the squad is Atley Donald, a brother of the illustrious "Lefty," who throws the ball across the plate in a manner that makes him look good for the varsity now. He was a star in high school at Downsville, and is the best Tech has coming up.

Two more good men are Davis and Dabney, who alternate at first base and take regular turns on the pitching staff. These boys promise to develop into real ball players for the Red and Blue.

Behind the plate the Pups have Gimber. Gimber started the season at first, but with a little practice behind the plate, looks like a real find.

"Little Dick" Hinton, a brother of the varsity captain, has shown good form at second base, and is one of the best on the team. Shortstop and third base will be taken care of by Cox and Diamond, the football stars. Both boys look good and should come through in fine style.

The outfield will be taken care of by Medica, basketball star, Smith and Cupit. Great things are expected of this trio.

LAGNIAPPE

1930

COACH E. M. SHIRLEY

Coach Shirley came to Tech in 1927. He was Tech's first track coach and turned out Tech's first track team. Shirley's success since he has been at Tech has been great. He seems to know a track man when he sees one, even before he sees the man run. Shirley went to college at L. S. U. and held a number of records both on the track and in the field while there. He was one of the most versatile trackmen ever turned out at the University.

LAGNIAPPE

YORK E. SHEPPARD

LEWIS PIRKLE

HENRY O. COOKSEY

1930

GORDON WEAKLEY

CAPTAIN DENNIS NOAH

RUDOLPH PIETSCH

Rudolph Pietsch is a junior, but this is his first year to take part in track. Pietsch throws the discus. Although this is his first year, his distance in this event has been impressive.

Bolen and Gatlin will take care of the shot-putting. Both are star football players and are expected to prove invaluable on the track squad.

Frazier and Spinks take part in the distance races with Spinks taking part in the relay. Both are good men, though neither has made a letter heretofore. They have an excellent chance to prove their ability this spring.

For the vaulting event the Bulldogs have Pirkle. This boy clears the bar at a good height and should develop into a winner.

Piper takes part in the two-mile race. This is

his first year in varsity competition and he is expected to develop into a real runner in time.

"Fannie" Mangham, star football halfback, is out for the javelin throw and high jump. Although this is his first year on the varsity squad, he looks good for points in every meet. His phenomenal improvement in the javelin throw while on the Freshman team last year makes his future look brighter than that of most any other man on the team.

Three other newcomers to the squad are making strong bids for honors. They are the McCarthy brothers, Harlan and Howard, and Cooksey. The McCarthy boys enter in the distance races and both show up well. Cooksey is a hurdler, and should, with development, become a constant winner in this event.

HAROLD SPINKS

HERBERT SMITH

CARLTON FRAZIER

LAGNIAPPE

ALDER PIPER

HARLAND McCARTY

HOWARD McCARTY

Although Coach Shirley lost several good men from his '29 team by graduation, it is expected that he will have a real track team this spring. Replacing such stars as Lowery and Peel is no easy job, but among the men reporting to early practices, it looks as if Tech will be a real threat on the track.

Captain Dennis Noah runs for the Red and Blue for his third and last year. Noah has been a valuable man to Coach Shirley ever since he reported the first time, and his worth to the team is shown by the fact that he was elected captain for this year's team. Dennis runs the two mile race, and there are few men in the S. I. A. A. who can beat him.

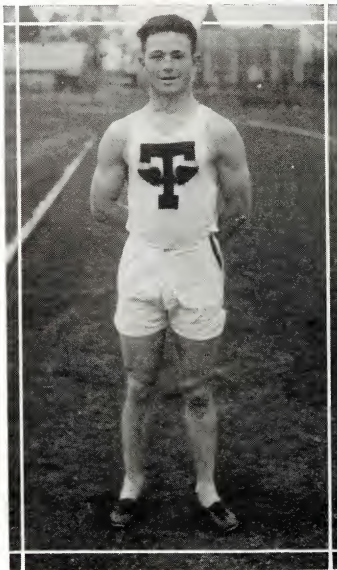

Gordon Weakley, the most versatile man on the team, is on the track team his second year. Weakley is a star basketball player and equally as good on the track. Among his specialties are the quarter-mile, the broad jump and the dashes. Heretofore

he has taken part in the quarter-mile event, but in early practice he has shown form that makes him look good for both the dashes and broad-jump.

Herbert Smith is serving his last year on the track team. In foregoing years, Herbert has taken part in races, but this year he is taking part in the discus throw. He is going to make someone work if they keep him off the team in this event.

York Sheppard, another of Tech's versatile trackmen, is running for the Red and Blue his last year. For two years York has taken care of the two-mile for Tech and this year it looks as if he will be called to run the hurdles.

"Shorty" Carlton is serving his last year for Tech. Carlton has been a good man all the time he has been on the team. His handicap in size is over-compensated by his fighting spirit and willingness for work.

"SHORTY" CARLTON

"FANNIE" MANGHAM

ROY BOLEN

FRESHMAN TRACK TEAM

Review

A large group of former high school stars greeted Coach Shirley for the Frosh track squad later in the winter quarter. Many of these boys are expected to make good for Tech on the cinderpath.

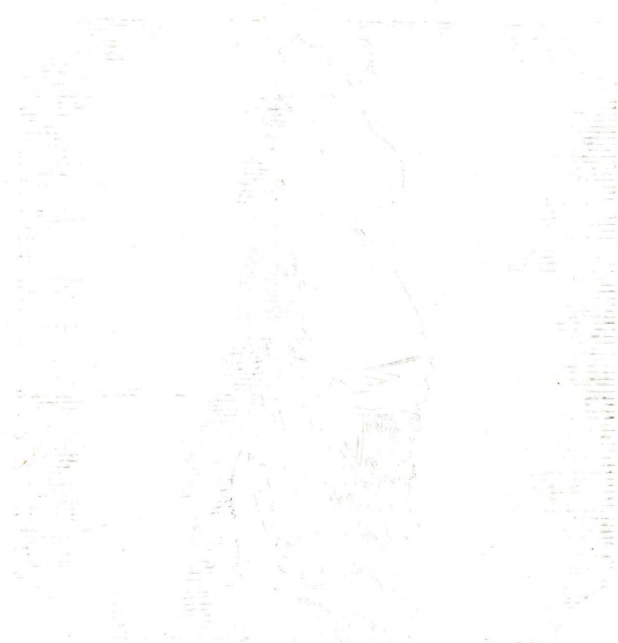

The Frosh won an early season meet in easy style from Summerfield and Jonesboro high schools. The men who showed best in this meet were Parker, Crowley, Humphries, Jones, Townsend, Knippa and Johnson. Parker is a big fast man and promises to be a valuable addition to the varsity next year. Crowley is the dash man and about the fastest the freshmen have.

Humphries, Knippa and Johnson take part in field events, with the latter running the hurdles. Jones shows up well in both field and track events and Townsend is a half miler who promises to become a real winner for the Red and Blue in future years.

With development, all of these boys are expected to prove very valuable to Tech in years to come. The way they started off the season indicates that they will have a successful one.

Feb. 18th,
1930.

Dear "Lagniappe-ans:"

This picking five beautiful girls from twenty beautiful subjects is a ticklish business.

And telling why is certainly out of the question!

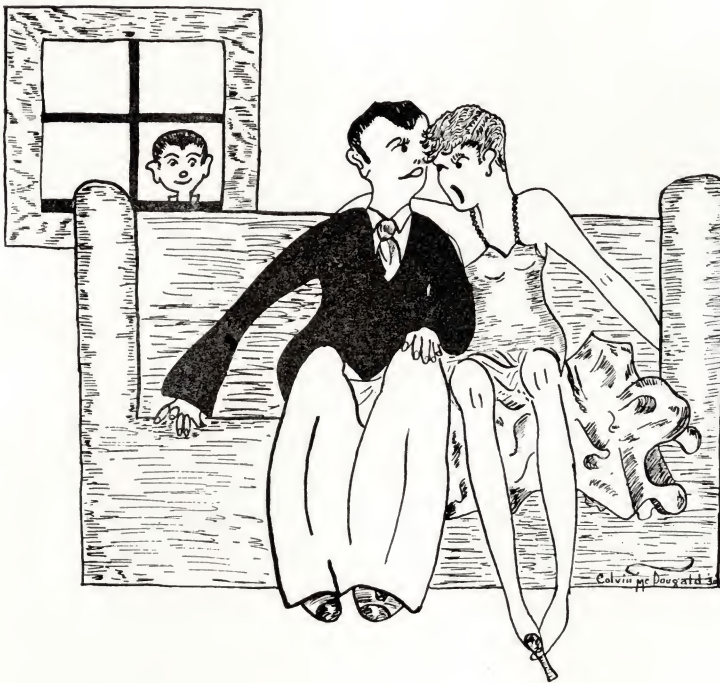

My hat is off to the whole corking twenty of you - and of course, to every single student in Louisiana Tech!

Best wishes always to you all,

Charles "Buddy" Rogers

ACROSS THE CAMPUS

Time

(DALLAS CHEEK)

It comes; it goes
It never stands still
It can't be held
Against its will.

Its hours run
Its moments fly
It takes our breath
As it goes by.

It's swifter than
The swiftest swallow
It beckons us
And we must follow.

LAGNIAPPE

LIBRARY TECHNIQUE

Bernice Hemler: "Thankful! What have I got to be thankful for? I can't even pay Lela Humble that dollar I owe her."

Sybil Green: "Why, be thankful that you aren't Lela."

Coach Rockwell said that after Haggard saw him he wrote his book on hygiene and sanitation.

Mr. Reese: "And so they lived happy ever after."

His little girl: "Gee, pop, it's lucky they didn't get married."

Mrs. Bond: "Don't you think that I have a little too much salt in the soup?"

Mr. Bond: "Not at all, darling; there is perhaps a little too much soup for the salt, that is all."

From the themes handed in from time to time Dr. Hogrefe is editing a weekly by the name of "The Literary Disgust."

Dot Thompson: "He told me he could live on my kisses forever."

Pete Atkins: "Are you going to let him?"

Dot: "Not until I find out what I'm going to live on."

Hall Terry: "Why do you always address the mail carrier as professor?"

Frank Rinehart: "It's a sort of honorary title. I'm taking a course by correspondence."

Tech Talk Headline: "Kid Sanderson Married. Will Fight on Honeymoon."

Mr. Broadwell (to girl student on campus at midnight): "What are you doing out here?"

Student (desperately): "I phoned Miss Rison and gave her a perfectly good excuse for getting back to school after eight o'clock and I've forgotten what the excuse was."

Mr. Mitchell: "Were you sure he was intoxicated?"

Charlie Blank: "Not positive, but his old lady said he brought in a manhole cover and wanted to play it on the portable."

Mrs. Bonds: "What did you do when you found out that your husband was leading a double life?"

Mrs. Shirley: "Oh, I redoubled."

OUR MAN-HATER'S CLUB

CHOW HOUR

Sanderson: "No girl ever made a fool out of me."

Dodo: "Who was it then?"

Coach Fox: "Crowley, were you ever fired with enthusiasm?"

Crowley: "Yes sir, from the dining hall."

Mrs. Folk: "Before we were married, Hayne, you always gave me the most beautiful Christmas presents. Do you remember?"

Mr. Folk: "Sure; but my dear did you ever hear of a fisherman feeding bait to a fish after he had caught it?"

Long: "Dearest, I must marry you."

Loulie: "But have you seen my father?"

Long: "Yes; many times, but I love you just the same."

A new Ruston minister in an address in chapel began, "As I gaze about me I see a great many bright and shining faces." Ninety-eight powder puffs were produced.

Mrs. Bradley: "And how do you feel now?"

Lucille Bays: "Just terrible. I feel as if I were going to die."

Mrs. Bradley: "But you can't die in here; this is the living room."

Mr. Hall: "Your essay on 'My Mother' was just the same as your brother's."

H. McCarty: "Yes sir, we have the same mother."

A doctor declares that kissing shortens life. We presume he means single life.

Miss Turner: "What happened to you?"

B. Holloway: "My girl threw me down a flower and forgot to detach the window box."

Ray Rhymes: "Would you marry an idiot for the sake of money?"

Sarah Hodge: "Oh, this is so sudden!"

Dean Mitchell: "Who is that swearing?"

Crawford: "It is Rass Littleton, sir."

Dean Mitchell: "And what for?"

Crawford: "He couldn't find a hymn book at church this morning."

Margaret Hatch: "I hope you will dance with me to-night Spec, or I hope you don't think I came here merely for pleasure."

Below: Our beloved little cheer-leader.

FINISHING NECK AND NECK

Coach Rockwell: "I've changed my mind."

Mr. Hale: "Does it work any better?"

Floy Wheelus: "And next week I am sailing for Paris to get my clothes."

Mrs. Bartlett: "I wondered where you left them."

Freshman Tom Jones (at church): "I wonder why they always say amen instead of awomen at the end of songs?"

Freshman Hutcheson: "Because they are hymns, silly."

Arline Petty: "I'd like to get something to wear around the dormitory."

Clerk: "How large is your dormitory?"

Johnnie Moffett: "Did Diamond threaten you when he kissed you?"

"Society": "Yes; he said, 'if you scream I will never kiss you again.'"

Mr. Clark: "Name the uses of cowhide."

Hank West: "Keeps the cow together."

Belin (in pressing room): "No; I would not cash a check for my brother."

Haley: "Of course, you know your family better than I do."

Mr. McGinty: "Why are you late again this morning?"

J. H. Boseley: "Well, was like this. I looked in the mirror this morning and I didn't see myself so I thought that I had already gone to class. And it is just now that I discovered that the mirror had fallen out of the frame."

Mrs. McDonald: "And what's wrong now?"

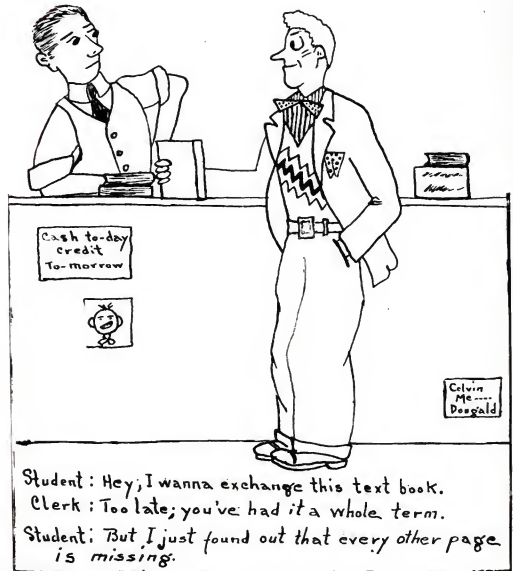

Bud Curley: "I just wanted to say that I think you get too much mileage out of this roller towel. Don't you know it is against the law?"

Mrs. McDonald: "Sure, but this one was put up before the law was passed."

"Shepperd: "Hurrah! Five dollars for my latest story."

Bennett: "Fine; from whom did you get it?"

Shepperd: "From the express company. They lost it."

INDOOR AVIATORS

Henderson: "Who is the most economical man in school?"

Gatlin: "Charlie Blank."

Henderson: "Why do you say that?"

Gatlin: "Because he is planning on having his wedding in the yard so the chickens will get the benefit of the rice."

Prof: "What is a zebra good for?"

"Sou" Minard: "Well sir, it is principally used to illustrate the letter 'Z'."

A real dude is a girl who says she can't stand cocktails because the feathers tickle her."

"I move we adjourn to Friday," remarked the flea on Robinson Crusoe's back."

Bert M.: "I've never seen such dreamy eyes before."

Chleey H.: "You've never stayed so late before."

Jack Dewees: "Well, did you follow my advice and drink a stiff whiskey after a hot bath?"

J. H. Boseley: "I did my best old lady, but I couldn't finish drinking the hot bath."

Jake T.: "Tam certainly has a magnetic personality."

Lelia M.: "Well, she ought to have, every thing she has on is charged."

Lit H.: "I think she is as pretty as she can be."

Brewton: "Most girls are."

Prof. Sachs: "I think Sloppy Murphy has many original ideas, don't you?"

Prof. Pankey: "Yes, especially in spelling."

Carrie H.: "Here's the manuscript I offered you last week."

Keith P.: "Say, what do you mean by bringing that back after I've once rejected it?"

Carrie H.: "Well, you've had a week's experience since then."

A man is but a worm of the dust. He comes along, wiggles about awhile and finally some chicken gets him.

Love Cooper: "No, Ed; I am sorry! I am sure we could not be happy together. You know I always want my own way in everything."

Ed Crowley: "But, sweetheart, you could go on wanting it after we were married."

Mr. Pankey: "Why do you girls use so much paint?"

Yvonne Nelson: "Save the surface and save all."

HOME-EC. CLASS

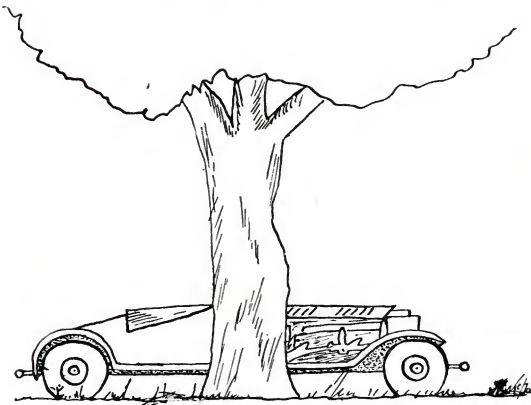

Co-ed: No, no I won't Kiss you!
Collich Boy: Then I warn you — I'll play my ukulele!

Mr. Clark: "What is an oyster?"
"Hank" West: "A fish built like a nut."

A man takes the first kiss, is given the second, and endure the rest.

Unless They've Got a Flat Tire

Many young men spend a lot of time tinkering with misses in their motors

Billy M.: "This is absolutely final. Shall I return your letters?"
Johnnie Moffett: "Yes; I think they are good enough to use again."

Head of Table: "I wish you would stop reaching for things. Haven't you a tongue?"
Bernard Crawford: "Yes, but my arms are longer."

Billy Mays: "What is the charge for this battery?"
Garage man: "One and one-half volts."
Billy: "Well, how much is that in American money?"

Fond Mother: "I guess our daughter has changed her mind about basketball and is going in for something more useful."
Father: "How so?"
Fond Mother: "Her letter says that she is on the scrub team."

M. E. Spring: "I wonder how old Mr. Sachs is?"
Duncan Curry: "Quite old, I imagine. They say he used to teach Caesar."

Bill R.: I think I'll open up an office when I graduate.
Bob B.: I'll probably turn out to be a janitor, myself.

Sue H; Do you think a correspondence course is as good as going to college?
 Jimmie P; Dunno; never tried petting by correspondence.

Rinehart: "Is this pre-war stuff?"
 Pipes: "I guess so; it's always followed by a fight."

Fred Courtney (writing home): 'How do you spell financially?'
 Gene Landes: "F-i-n-a-n-c-i-a-l-l-y and there are two 'R's' in 'embarrassed.'"

Prof: "You should think of the future."
 Soph: "I can't. It's my girl's birthday and I have to think of the present."

"Chick": "What would you call a man who hid behind a woman's skirt?"
 "Fannie": "A magician."

BETTER stick to "STANDARD"

This is sage advice—whether your car be old or new. For behind "Standard" Products lie the resources, the long experience, and the technical skill of one of the world's great petroleum organizations. Constant research and the use of up-to-date processes assures uniform, high quality in and satisfaction from every product which bears the "Standard" name.

"STANDARD" IMPROVED GASOLINE turns more wheels than any other fuel in Louisiana. It gives you motor performance equal to many premium fuels.

"STANDARD" MOTOR OIL seals compression, protects moving parts at all speeds and temperatures, and makes motors run smoother and costs run lower.

ESSO is the motor fuel of giant power. It eliminates motor knocks, pulls harder, faster and smoother — like adding two more cylinders to any car!

The City of Ruston

EXTENDS A HEARTY WELCOME TO TECH'S FACULTY,
STUDENT BODY AND THEIR FRIENDS

The present City Administration is thoroughly in accord with the advancement of higher education, such as is being taught at Louisiana Polytechnic Institute. The young men and young women of this section are being equipped with a technical knowledge of the various departments of Tech, which enables them to master the many problems which will confront them as they go out into practical life.

We are proud of the student body, the faculty, and their associates and stand ready to assist in any way toward the advancement of our great institution of learning. The student body is held in the highest esteem by this administration.

It is our purpose to build here a city in direct harmony with Tech ideals, to the end that fathers and mothers will feel perfectly safe in sending their children within our midst. We want a modern city in every respect; but, one without the influence which might tend to detract from a desire to acquire a higher education, mentally, morally and physically, and we, here and now, pledge our support towards the building of a bigger and better Louisiana Tech and community.
